COVER

The cover illustration represents the emblem in the center of the Oklahoma State Flag, which is an Osage warrior's buckskin shield, decorated with pendant eagle feathers. Across the face of the shield runs the red man's calument, or pipe of peace symbol, and the olive branch. The shield implies defensive or protective warfare. The small crosses on the shield are the Indian's graphic sign for stars which indicate lofty ideals or a purpose for high endeavor. The important symbols, however, are the calumet and the olive branch. These override the shield, the symbol of war, and represent a predominate love of peace by a united people and the union of the Indian Territory and Oklahoma Territory into the one great State of Oklahoma.

FOREWORD

The Indian Education Program in Eastern Oklahoma is financed and operated under the provision of a contract between the Bureau of Indian Affairs, Department of the Interior, and the Oklahoma State Department of Education. The supervision and administration of the program is carried out entirely by the State Department of Education as authorized by the Johnson-O'Malley Act of 1936. Prior to 1947, the program was administered by the Indian Bureau.

This Twenty-Nineth Annual Report of Indian Education in Eastern Oklahoma has been prepared by the Indian Education Section to comply with State Contract No. GOOC14202434.

The State Department of Education extends our appreciation to the Muskogee Area Office and their staff for their cooperation and assistance in implementing special educational programs to meet the unique needs of Indian students attending public schools.

The entire staff of the State Department of Education is available to render technical assistance and service to tribal leaders, Indian organizations, Parent Committees, teachers, schools, and others to improve the educational opportunities of Indian students.

Please call on us in the State Department of Education, if we may be of assistance and we will be complimented if asked.

Sincerely,

Leslie Fisher
State Superintendent

IV. Appendix

N A R R A T I V E

The Indian Education Section of the State Department of Education administers the Johnson-O'Malley Program under a contract with the Muskogee Area Office of the Bureau of Indian Affairs in 41 counties of eastern and southern Oklahoma.

The overall goal of the Johnson-O'Malley Program is to improve the educational opportunity of the 10,481 eligible Indian students (one-fourth or more degree Indian blood) attending 106 schools that the Indian enrollment is 10% or more of their total enrollment.

The average daily attendance was 89% compared to 85% last year. There were 481 Indian graduates from Johnson-O'Malley high schools and 807 graduated from the eighth grade. The drop-out rate was 3.3% compared to 4.5% in school year 1972-73.

The amount of contract funds for school year 1975-76 was $1,592,008.01. Seventy-two percent of the funds was made as a direct payment to the local schools to implement academic enrichment projects to meet the special needs of Indian students.

The amount of Johnson-O'Malley funds a school received was based on three factors: (1) the number of eligible Indian students; (2) the financial need of the school district; and (3) the educational needs of the Indian students.

The Indian Education Section has an office staff of five; administrator, administrative officer and three secretaries. Ten professional field coordinators live and work in areas that have a high percentage of Indians. They serve as a liaison between the Indian community, Indian parent committee, Indian students and the school. The Coordinators do extensive counseling of students and parents in their home. They monitor and evaluate the Johnson-O'Malley funded projects.

In keeping with the national philosophy of Indian self-determination and involvement, an Eastern Oklahoma State Johnson-O'Malley Committee, elected by the Indian people, has been organized to advise the State Department of Education and the Bureau of Indian Affairs in regards to policies affecting Indian education.

Each local school has an elected Indian Parent Committee to insure parental involvement. Their responsibilities consist of working cooperatively with the school administration in identifying the special needs of Indian children and developing special projects to meet these needs. The Parent Committee determines how the Johnson-O'Malley funds will be used.

During school year 1975-76, three cooperative projects were funded. In Cherokee County, Speech Therapist; McCurtain County, Speech Therapist; McIntosh County, Home-School Aide.

Comprehensive training programs were implemented during the year, including: Teacher Aide Workshop; Parent Committee Institute; Teacher Awareness Institute; and Home-School Aide Workshop. One of the most outstanding programs was Operation Eagle I, a program for gifted and talented junior and senior Indian students. Hard work, study, lectures, recreation activities and participation in creative projects filled the agenda for two weeks on the campus of Northeastern State University of Tahlequah.

Perhaps the outstanding activity of the year was the development of a curriculum guide produced in cooperation with the Curriulum Section of the State Department of Education. The material presented in the book will be a useful teaching tool and ready resource for teachers of Indian students.

School year 1975-76 has been an outstanding year for the Indian Education Section and the State Department of Education.

Specific recognition and appreciation is given to Mr. Thommas Jack Ellison, Area Director of the Muskogee Area Office, and his staff for their cooperation and support of quality education for Indian children.

Also, special tribute and gratitude is extened to the Indian Parent Committees, the State Johnson-O'Malley Committee, and school administrators who willingly gave of their time and efforts to help make school year 1975-76 a very special and productive experience for Indian students in the public schools of Eastern Oklahoma.

EASTERN OKLAHOMA EDUCATIONAL PLAN

(For Administration of Johnson-O'Malley Funds)

1975-76

I. PURPOSE:

The purpose of this plan is to: outline the procedures to follow in administering Johnson-O'Malley funds, to define the Indian parental participation role in the development of local education programs, and how the local Community Indian Education Committee works cooperatively with the local school developing and carrying out a local program.

II. PROVISIONS:

Johnson-O'Malley funds may be requested by the State for Special Programs Primarily Affecting Indian Students and/or Parental Costs (Kindergarten through twelfth grade), Administration (State level) and Basic Support. Basic Support funds will be limited to meeting educational problems under extraordinary and unusual circumstances as determined by the Muskogee Area Office and the State Department of Education.

III. HOW A SCHOOL QUALIFIES FOR JOHNSON-O'MALLEY PROGRAMS:

To qualify for Johnson-O'Malley funds from the State, the local school district must meet the following requirements:

(a) A minimum of 10% of the total school enrollment must be eligible Indian students. Schools with less than 10% Indian enrollment who are currently on the Johnson-O'Malley programs that provide educational services for federally housed-dormitory students may be approved by the

Indian Education Division, State Department of Education, for Johnson-O'Malley funds by showing an exceptional need in a given area based on the availability of funds.

(b) Johnson-O'Malley funds shall supplement and not supplant local and state funds.

(c) The amount of Johnson-O'Malley funds a school district receives is based on three factors: (1) financial need of the school district, (2) number of eligible Indian students enrolled, and (3) the educational need of the participants, as determined by the Indian Education Division, State Department of Education.

(d) Eligible Indian students shall include only those who are verified as being one-fourth (¼) or more degree Indian blood, unless excepted by law.

(e) To insure maximum local effort, the school district must levy the full 35 mills.

(f) The local school district must be eligible for and receive State Aid.

(g) Justify the need for Johnson-O'Malley funds after all sources of revenue (local, state, and federal) are considered, including Public Law 874.

(h) When a school has a general funds surplus in excess of 10% of the school district's operating budget, a documented analysis of the district's financial needs must be prepared by the local school district and made a part of the original proposal(s) before the program can be funded.

IV. PROGRAM DEVELOPMENT AND ROLE OF THE SCHOOL ADMINISTRATOR

To best meet specific educational needs of Indian students,

it shall be the responsibility of the local school administrator and the local Community Indian Education Committee to jointly develop special programs. They must collect base line data, make accurate needs assessments, set up sequential priorities of educational deficiencies and submit proposed project(s) and budgetary breakdowns to the State By June 15th annually.

(a) The local school administrator will give public notice at least five working days in advance to all parents and/or guardians of Indian students attending said school that an annual election is to be held on school-owned property for the purpose of filling expired terms of local Community Indian Education Committee members, consisting of five. The term of office shall be two (2) years. In even calendar years, there will be elected three (3) members. The date is to be the first Tuesday in February for all Dependent districts and on the first Thursday following the first Tuesday in February, for Independent districts, between the hours of 6:00 P.M. and 9:00 P.M. The current local Community Indian Education Committee will be in charge of the election procedures. The new local Committee will take office the date of their election.

(b) The school administrator shall submit to the Indian Division of the State Department of Education in proposal form giving a brief description of the project(s) and duties to be performed by each Johnson-O'Malley funded employee, project goals and objectives, methods of evaluation, project title, grade level assigned, total number of students enrolled in the project, total number of Indian students enrolled, teacher

aide supervisor, total cost of project, and total amount requested form the Indian Education Division.

(c) The proposal(s) shall indicate the involvement and approval of the local Community Indian Education Committee by the individual hand-written signatures of the majority of the local Committee.

(d) When it is necessary to modify an existing project, it must be approved in advance by the local Community Indian Education Committee and the Indian Education Division.

(e) All personnel employed with the assistance of Johnson-O'Malley funds will be governed by the official policies of the shcool district in which they are employed. In selection of personnel for Special Programs, preference shall be given to qualified Indians.

(f) Funds for special programs may be requested by local school districts for a variety of services that directly or indirectly improve the educational opportunities of Indain students. Special Programs may include, but are nor limited to the following: remedial education, counseling and guidance, tutorial programs, summer programs (must be submitted with original proposals on or before June 15), inservice training for teachers, teacher aides, regional and local Community Indian Education Committees, School Board members, tribal leaders, arts and crafts, special teachers in specialized areas, supplies and equipment, and Parental Cost.

(g) In implementing Special Programs, Johnson-O'Malley funds shall not be used to foster segregation in accordance with

Civil Rights legislation of 1964.
